

MSc APPLIED PSYCHOLOGY

Overview

This programme is for students who have previously studied psychology and intend to further their knowledge and understanding in an applied area of psychology.

This is an ideal qualification for individuals who aspire to become professionals in the areas of mental health, child care, educational management, social care, teaching, research, counseling, psychological assessments and various forms of psychotherapy. Due to the diversity of applied psychology, the skills are highly transferrable and can be utilized to enter other fields of study as well.

Entry Requirements

BSc / BA in Psychology or
Any Bachelors Degree
+ 120 Credits in Psychology

Assessments

Written Examinations
Coursework
Placement

After completing my BSc in Psychology from a US university I joined the MSc Applied Psychology program at CIRP. After graduating I joined the Sri Lanka Army as a Psychologist and I am currently working in the military hospital. It is interesting and satisfying to apply what I learnt during the program to my therapeutic practice at work.

Dimithri Thilakasundaram
Psychologist
Sri Lanka Army
